1. [REDACTED] met with [REDACTED] CI Staff, and members 25X1A
 of the A&E Staff to discuss his previously reported trip to Miami where
 he interviewed [REDACTED] psychologists and psychiatrists. [REDACTED] 25X1A9a
 vised [REDACTED] to continue his contacts in a manner consistent with
 his cover. One of the [REDACTED] psychologists will be met by [REDACTED] 1498
 future and requests will be made for him to provide information of the
 type needed for our study.

2. [REDACTED] departed for Miami on 17 October 1962 to start the as- 25X1A9a
 sessment [REDACTED] requested by WAVE in a cable this week. [REDACTED] 9a
 will depart for the same project on 21 October. Both individuals will
 return to Washington on 27 October.

Since this team will not complete the 50 assessments, another 25X1A
 team will have to be sent down to replace them. C/A&E met with [REDACTED]
 and [REDACTED]/TSD on 16 October at which time the involvement 25X1A
 of TSD psychologists was discussed. It was agreed that one individual,
 probably [REDACTED], would be available to go to Miami on about 28 October
 for a two week TDY. [REDACTED] requested that he be accompanied by a
 member of our staff who has previously been on this project.

[REDACTED] had lunch with Dr. [REDACTED] Director of 25X1A
 [REDACTED] October at which time Dr. [REDACTED] proposed visit to OTR 25X1A
 was discussed (Weekly Report No. 25, Item 4). Dr. [REDACTED] said he could 25X1A
 be available any time during November but that he really felt that he should

inform his own sponsor of his visit to the Agency before he proceeded. He even suggested that we write a letter requesting that he brief us. [REDACTED] informed [REDACTED] that C/A&E would be calling him in 25X1A the near future to make arrangements. [REDACTED] requested 25X1A/98E to assure Dr. Crawford that a letter to the sponsor probably was not necessary. Guidance is requested as to whether DTR wishes to pursue this matter if [REDACTED] requests that we write a formal letter to his sponsor (whether the sponsor is [REDACTED] 25X1A the home of [REDACTED] or the Army is not known at this time). 25X1A

4. [REDACTED] completed the preparation of five copies of the programmed training aid, "Observation and Description (Persons)", which has been in process of reproduction and assembly since March. This program, 581 frames long, is designed to improve the trainees' ability to observe and describe a person's outstanding physical characteristics, his race, body build, height, and age. It has developed through a series of tryouts, and subsequent revisions, with a total of 18 students. Further tryouts may be required to adapt it to particular student populations, but it has seemed to work well with those who tried it so far. Three copies were delivered to Chief, CC/OS/TR and one copy to Chief, TAS/OS/TR for their comment about its possible usefulness in their own training programs.

5. In a meeting between [REDACTED] of NPIC, and 25X1A [REDACTED] of OTR, [REDACTED] recommended 25X1A/98E against adopting a proposal [REDACTED] for developing a training curriculum for NPIC and suggested instead the use of the [REDACTED] 25X1A/98E. The possibility of making use of [REDACTED], a small but apparently outstanding group of behavioral scientists who have already done some work for NPIC, was suggested by [REDACTED]. Because at least one of this group is already cleared for TOP SECRET and has had some exposure to NPIC photo interpretation problems, [REDACTED] could perhaps speed the development of the training package by helping [REDACTED] with the job analysis during the 90 days that [REDACTED] people will have to wait for TOP SECRET clearances.

6. A total of \$364.00 has been donated to the UGF by 21 members of the A&E Staff.
